

# DMA Driver Team

Name	Sec	BN
عبدالله محمد شحاته محمد	1	49
مؤمن ماجد محمد رزق	2	12

- The link below is for the video uploaded on youtube:  
<https://youtu.be/qR34ITjJLN8>
- The link also for the repo containing the project with all new changes:  
[https://github.com/AbdallahMohammad1/DMA\\_driver.git](https://github.com/AbdallahMohammad1/DMA_driver.git)
- **Note 1:** we didn't need to receive multiple status in the client function as we have a double check that the enable is coming from transfer complete interrupt.

- **Note 2:** we have checked that after interrupt with using a delay for a second then turn off the led. And it works( we will make this check commented in the while(1)).
